## Editor's Desk

### **DR. SUPRIYA KAPOOR** **Assistant Professor** **Trinity College Dublin**

Welcome to our latest edition of Edlines-Today. During this auspicious time of festivity, the entire team of Edudev's wishes you all a peaceful and prosperous festive season. A time for celebration, a time for when world sees the power of good, let us also use the power of education to spread awareness and positivity around.

This edition of Edlines Today features Wilsonia College, Moradabad in our Big-League Institutions. The school aims to provide exceptional education and co-curricular facilities to students and groom them well so that they are able to take up any challenge in the real world. This article highlights the vision and philosophies of the school along with all the wide collaborations and programmes the school organizes, including the Mother Empowerment for Educational Development programme. The school's director Mr. Asheesh Santram shares her vision and philosophy of the school with the audience.

Next, we bring close observations and insights on choosing appropriate assessment methods for students. It is very important that teachers continuously assess students via different modes and also communicate the results to the students and parents in a timely manner. This has been very well expressed in our Voice of the Educator column by Ms. Kalpana, Principal at Vidya Samrat International School.

This edition focuses a lot on early education. We have two very interesting articles on the topic. First, a very inspiring article in Principal's Desk column of this edition is by Ms. Nitisha Yadav from Indraprastha Convent School, Delhi. The article really focuses on what exactly does the early curriculum needs- a right balance between digital and emotional leadership. The article definitely echoes what the new educational policy aims to bring. Second, the article by Ms. Devyani Kapoor on early childhood care education speaks to the audience about what exactly children need in order to develop their skills during the formative years. Along with a holistic classroom environment, the children should be directed towards logical thinking and problem solving, co-curricular activities including art, craft, music and dance, developing etiquettes and proper social behaviour, [read more](#)

but also the patience and passion for working with young children. These educators understand child development and know how to create a stimulating learning environment.

#### **3.Age-Appropriate Curriculum:**

One size does not fit all in early childhood education. The curriculum must be [read more](#)

Early childhood education is a critical stage of a child's development and there are several essential elements that students need to thrive in this environment. The early years of a child's life are a time of profound growth and development. It is during this crucial period that the foundations for learning, socialization, and overall well-being are laid. Early childhood education plays a pivotal role in shaping the trajectory of a child's life. To provide children with the best start possible, there are several essential elements that make early childhood education a transformative experience.

**1.A Safe and Nurturing Environment:** The physical and emotional safety of a child is paramount in early childhood education. Young children need an environment where they feel secure and loved. This safe space allows them to explore and learn, knowing they are protected.

**2.Qualified and Caring Teachers:** Teachers in early childhood education must possess not only the right qualifications

## The Big League Institution

### WILSONIA COLLEGE MORADABAD

Wilsonia was founded on the 08th of July 1966 by Rev. H.R. Wilson and Mrs. Virginia Wilson in their Bungalow. The school got its name from the Bungalow itself 'Wilsonia' which means the home of the Wilsons. Five Decades since its inception, Wilsonia still holds the privilege of being the city's most reputed Group of Institutions. The school has expanded tremendously during the years and now has an identity of a split unit system.

The Wilsonia Group comprises FOUR Branches. The Parent School, Wilsonia College that is affiliated to the Council for the I.S.C Examinations – New Delhi. Wilsons Play House is the Kindergarten Wing of Wilsonia College. Wilsonia Scholars' Home is situated on Delhi Road, Pakbara, Moradabad, and is affiliated to the Central Board of Secondary Education. Wilsonia Degree College, is situated on Kanth Road, Moradabad. [read more](#)

Teachers should be skilled in choosing assessment methods appropriate for instructional decisions –Skill in choosing appropriate useful, administratively convenient and interpreting results from diverse assessment. Teachers who meet this standards will have the conceptual and application skills that follow. They will be skilled in interpreting informal and formal teacher produced assessment results, including pupil's performance in class and on homework assignments.

Teachers will be able to administer standardized achievement tests and be able to interpret the commonly reported scores :percentage ranks, marks card and grade which is equivalent to their achievements .They will have a conceptual understanding of the summary indexes

commonly reported with assessment results measures of central tendency, dispersion, relationship , reliability and errors in measurements .Teachers will be able to apply these concept of score and summary indices in ways that enhance their use of the assessments that they develop. Teachers will be able to apply these concepts of score and summary indices in ways that enhance their use of the assessments that they develop. [read more](#)

## Principal's Desk

*"Perfection is not attainable, but if we chase perfection we can catch excellence."*

The greatest challenge that I have faced and am still facing as an Educational Leader, is tackling the huge and unrealistic expectations that the parents have from their wards. At times this takes away the originality of the student and also his willingness to study goes for a steady decline. I wish parents would allow the children to pursue their dreams and let them fly happily towards their dream destination. When a student studies the subjects of his choice and follows his passion, the challenges of life and further of his professional journey become more acceptable to him.

Today's educational world needs leaders with the right balance of Digital Leadership and

students. Education is a dynamic field, and the understanding of education continues to evolve with changing societal needs, technological advancements, and educational theories.

School teachers play a pivotal role in the formal education system by facilitating the learning process, imparting knowledge, and nurturing the development of students. They are instrumental in [read more](#)

#### Q1. As a school teacher what is your understanding of education?

ANS 1. Being a school teacher for 17 years, I learnt to support learners in their quest for new knowledge on a specified set of subjects. To make them committed to learn best practices through different teaching techniques. Imparting of knowledge should be in way that it is easy for learners to adapt. We should not only focus on Academic Knowledge but we should encourage in developing Skills. Skill Development helps individuals acquire practical skills, such as critical thinking, problem-solving, communication, and technical abilities, which are essential for personal and professional growth. In my school of thoughts Education involves Personal growth, Socialization, Life-long learning, SEL & Skill development.

School teachers play a pivotal role in the formal education system by facilitating the learning process, imparting knowledge, and nurturing the development of students. They are instrumental in creating a conducive learning environment and shaping the future of their

*"Everybody is a genius. But if you judge a fish by its ability to climb a tree, it will live its whole life believing that it is stupid." Albert Einstein*

I believe that there are different kinds of flowers. Each flower has its own unique beauty and time. So, if nature accepts that everything has its own time and place, why do we expect children to fall into a slot and straitjacket them. As educators and parents, it is our duty to find out the strengths of the child and nurture that instead of expecting a child to do what we expect of them; to follow only social norms and expectations. There is a dire need to come out of this way of thinking. I am also trying my best to do this and we all need to work towards it, even though it is not easy. [read more](#)

"Elevate your school's future with EduDevs"

# EDUDEVs KNOWLEDGE PARTNER

EduDev Knowledge Partnership (EKP): A tailored program for collaboration between EduDev and partner schools, enhancing education through a dynamic approach for educators, school leaders, students, and parents, igniting transformation towards excellence.

## VISION

Our vision is to close the education gap and create a brighter future for all by **providing tailored and comprehensive support** to every stakeholder in the educational ecosystem.

## MISSION

Join EKP today to unlock your institution's full potential and build a promising future with **personalized assistance, comprehensive modules, and empowering workshops.**
